## LANGUAGES

## WORK EXPERIENCE

**CODEAPLHA**  
Virtual  
Apr 2025 - May 2025

### Intern

Actively participated in the Front-End Development Virtual Internship at CodeAlpha from April to May 2025. Gained hands-on experience in front-end, collaborating on real-world projects and demonstrated strong commitment, problem .

## EDUCATION

**PAK-AUSTRIA  
FACHHOCHSCHULE:  
INSTITUTE OF  
APPLIED SCIENCES  
AND TECHNOLOGY**  
Mang, Haripur  
2027

### Undergraduate

Pursuing a BS in Software Engineering (4th semester) with a CGPA of 3.0. Building strong foundations in programming, databases, and system design, with a keen interest in practical problem-solving and software development.

## PROJECTS

### login System in C++

Created a basic login system in C++ using structures and file handling. Included user registration and login features with simple input validation.

### Wheather App in C++

A simple C++ program that gets and shows current weather using a weather API. It fetches data like temperature and conditions for any city.

### online course Registration

This is a basic online course registration system where students can register for courses through a simple interface. The system stores student and course information in a MySQL database. It allows adding, updating, and managing course enrollments efficiently. This project demonstrates how to connect an application with a MySQL database to handle user data and registrations.

### music player in c++

A simple music player built with C++ and the Qt library. It can play audio files, control playback (play, pause, stop), and manage playlists using Qt's multimedia features

HOBBIES

BOOKING READING , CODING ,  
CHESS .

PERSONAL DETAILS

Date of birth  
08 Jul 2005

Nationality  
Pakistan

COURSES

- PAF\_IAST UNIVERSITY
- Programming Fundamental and OOPs
  - DSA in C++
  - Software Requirement Engineering
  - Operating System
